

GREENWOOD NEWLETTER

NOVEMBER 2011

Yard Waste – Effective January 1, 2011 our trash company can no longer accept yard waste of any kind that is put out with your regular trash. Our trash hauler Waste Management has a program for residential yard waste removal. It is an agreement between the individual resident and/or homeowner and Waste Management. Call Waste Management for further details. Their phone number is 800-550-8683. **If you currently use this service and don't see a need for it in the winter months please call Waste Management and let them know that you want to suspend that account until next spring.**

Christmas Lighting – The Town of Greenwoods Christmas lights will be turned on the day after Thanksgiving. More to follow about other holiday events in the Town in the December newsletter.

Dart Bus Route – I recently attended a Sussex County Transit Improvement meeting. We are on the schedule (2013 or 2014) for a stop somewhere in Greenwood. Representative Wilson is also behind this project. Maybe we can see it through.

Delmarva Power – On October 17, 2011 Delmarva Power began a multi-year project upgrading the electric service in Greenwood. They will be converting the distribution system from 4-kilovolts to 25 kilovolts. This upgrade will enable Delmarva Power to meet the Town of Greenwood's customer demand through increased capacity.

Greenwood Town Council Elections – The Municipal elections for the Town of Greenwood will be held on Saturday January 21, 2012. Please see additional information on the election included in this mailing.

Water Conservation Tips – In an effort to help the residents of Greenwood conserve water we will be including a monthly water conservation tip. The tip for November – “Use a broom, not a hose, to clean driveways and sidewalks”.
